BHA received the below question after the Q&A period but found it relevant and important to the RFP and determined to provide a response for all proposers to factor into their submittals.

1. **Q: Financial Statement Disclosure:** As a privately held company, our company maintains strict confidentiality policies regarding its financial information. Consequently, we are unable to provide company financial statements to third parties. We would welcome the opportunity to discuss alternative ways to demonstrate our financial strength and stability.

   A: BHA will require proof of financial solvency but does understand that this is confidential information. Respondents to the RFP can provide alternatives to detailed financial data such as a financial health letter, Dun & Bradstreet or other credit report, tax filing, or a summarized external audit report would be acceptable or other documentation that provides sufficient detail to determine financial credibility to provide services pursuant to the RFP.
